# Reappraisal Plan & Re-check Timeline

SF is back in session Aug. 16th. Field inspections will begin this day. Goal is to have complete by Christmas Break when kids are home again. Data entry from inspections to be entered by the new year so we start the next part caught up!

All data entry must be complete by March 4th. This will allow time to create tables & schedules, training, etc. before the 2024 appraisal notices go out in the mail. Ownership needs to be as current as the clerk's site has provided. All exemption & ag applications worked. We will continue working the remaining as they come through.

PRINT & MAP   **INSPECTIONS**   **RE-CHECKS**   **DATA ENTRY**   **NOTICES**

Once 2023 values are certified and the system is rolled over to the new year, print SF appraisal cards. Organize cards by city, subs and roads. Field work will begin once kids are back in school.

The Re-Check List will be reviewed and printed mid to late December. Re-check inspections will begin once school is back in the different areas of the county. Goal is for all field work to be complete by Feb 9th.

Notices must be sent to the printer on April 2nd. This will allow the notices to be mailed prior to April 15th. Anticipated mail date is April 10th.
